REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or suggest a seeding apparatus comprising a metering wheel having a predetermined circumference which is a function of a predetermined plot length; a rotation sensor to measure the rotation of a wheel and generate a signal in response thereto; a controller to receive at least one signal from the rotation sensor and in response thereto generate a trigger signal; and a seed release mechanism to receive the trigger signal and in response thereto dispense seed substantially at the predetermined plot lengths as specifically called for in the claimed combination in claim 1.

The prior art of record also fails to show or suggest a method of dispensing seed, comprising sensing the rotation of a metering wheel having a predetermined circumference which is a function of a predetermined plot length; generating a trigger signal after the wheel has traveled a distance substantially equal to the predetermined plot length; releasing seed in response to the trigger signal substantially at the predetermined plot lengths as specifically called for in the claimed combination in claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
